

Support ticket submitted via web form - PayWise Mobile App

Name: Ananya Reddy Email: ananya.reddy@example.com Category selected by customer: Account

Message: Since the app update on 11 September 2026 I am unable to log in to my PayWise account. After entering the OTP the app shows "Session expired, please try again" and returns to the login screen. I have reinstalled the app twice and tried on both mobile data and WiFi.

My electricity bill auto-pay is due on 20 September and I cannot check whether it is set up correctly. I have attached screenshots of the error message.

Please help me regain access to my account.
